# Correction to: Risk factors for mortality in elderly and very elderly critically ill patients with sepsis: a prospective, observational, multicenter cohort study

Ignacio Martin-Loeches<sup>1,2,3,4\*</sup>, Maria Consuelo Guia<sup>5</sup>, Maria Sole Vallecocchia<sup>1,6</sup>, David Suarez<sup>5</sup>, Mercedes Ibarz<sup>7</sup>, Marian Irazabal<sup>7</sup>, Ricard Ferrer<sup>8</sup> and Antonio Artigas<sup>5,7</sup>

## Correction to: *Ann. Intensive Care* (2019) 9:26

<https://doi.org/10.1186/s13613-019-0495-x>

Following the publication of the original article [1], the author reported two mistakes in Fig. 1:

1. The note “1490 patients with  $\geq 65$  years of age” was missing;

2. Elderly ( $n = 119$ ) (80.1%) should be replaced with Elderly ( $n = 1193$ ) (80.1%).

It has been corrected in the original article as well. The publisher apologizes for any inconvenience caused by this error.
